1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16, 22-34, drawn to a memory attached to a consumable in a printing apparatus wherein the memory has firmware components and a method of uploading the firmware components to the printing apparatus, classified in class 399, subclass 11.
- II. Claim 17-21, drawn to a method of customizing firmware components including receiving information from a purchaser (ordering) and storing firmware components on a memory (fulfilling order), classified in class 705, subclass 16 or 26.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus claimed (process cartridge with memory module having firmware components) can practice another materially different process (than the ordering/fulfilling order process) such as being used in a process of forming an image onto a recording medium.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
